

WHY JOIN THE ARIZONA WATER WELL ASSOCIATION?

The **Arizona Water Well Association** (AZWWA) was formed in 1957 and reorganized in 1977 to become an effective voice for Arizona’s water well industry and continuously assists members in the water well industry.

AZWWA’s objectives are to assist, promote and support the interests and welfare of all phases of the water well industry. To achieve this, our members work to advance well construction, development methods and the science of ground water hydrology. Harmony and cooperation are sought among contractors, suppliers, technical personnel and governmental agencies.

To help meet these objectives, the **Arizona Water Well Association** offers members a quarterly newsletter (the “*Well Said*”), an annual membership directory, quarterly meetings and opportunities for educational seminars. The Association is active in legislation relating to Arizona’s ground water industry, assists in developing state licensing requirements and works on ground water and drilling controls.

The **Arizona Water Well Association** offers scholarships to children and/or grandchildren of contractors who have been members of our Association for a minimum of 2 years.
